ABOUT US

Haridaya Industries was established in the year 2011. We manufacture and supply a qualitative range of electrical boxes by the name of "KISAAN". Our product range encompasses, Modular Boxes, Electrical Switch Boxes, Fan Boxes, Concealed Boxes, MCB Distribution Boxes etc...

We are specialized in the import and export of these products to meet the needs of our customers. Our team has extensive experience in the international market, ensuring that all our clients get quality products at competitive prices. We take great pride in providing excellent customer service and making sure that all our customers are satisfied with their purchase

.These products are highly admired for their quality and feature such as easy installation, durability, corrosion resistance, strength, longlife, dimensional accuracy. With advanced design and development skills we have successfully emerged as a distinguished entity in the industry.

We offer custom-made products as per the client's requirements at industry leading prices. Moreover, we provide product samples (exclusive of delivery charges) so that clients can be assured of the high quality of our products.

OUR MISSION & INFRASTRUCTURE

OUR MISSION

Dealing with customer expectations and producing high-quality items is the company's primary goal. In order to improve corporate output, we collaborate with our employers and give them a better working environment so that they feel comfortable working with us. Our reliable services, such as lifelong security for our employers, provide them a sense of security.

INFRASTRUCTURE

The business features first-rate infrastructure, which is used for a variety of functional tasks including quality control, appliance operation, and product appearance and health. We also have a separate space where we pack and transport the merchandise. For our business, the fundamental requirement is research and development. Our highly skilled and competent employees conduct extensive study in a separate sector of research and development to provide high-quality products.

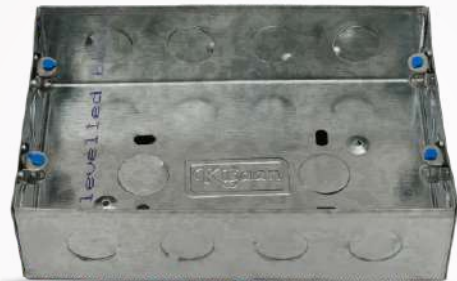

ECO SERIES

OF TRUST

ECO GI MODULAR BOXES

As a leading GI Modular Box manufacturer, we specialize in crafting galvanized iron enclosures designed for versatile electrical applications. Our modular boxes are known for their robustness, corrosion resistance, and ease of installation.
